

Dear future boss,

Thank you for considering my application. Please feel free to reach out to me at any time. 720-307-2468, Leah@thetechpals.org

I believe in a company culture of innovation, and hiring diamonds to polish, not rock to cut and cut and shape and mold that will never shine.

Core Values:

1. Act in the Best Interest of Clients (#1)

Always prioritize the needs and goals of clients. When their success is the focus, long-term prosperity will follow naturally.

2. Add Value Always, No Matter What it Pays

Consistently deliver value beyond expectations, knowing that the return on investment is more than monetary—it's about building trust and loyalty.

3. Stay Three Steps Ahead

Anticipate the needs, challenges, and desires of clients, employees, and the business itself. This proactive approach ensures stability and growth.

4. Communicate Boldly and Openly

Lean into difficult conversations and resolve conflicts swiftly. Transparency and timely communication build trust and foster collaboration.

5. Adapt and Innovate Relentlessly

Embrace change and see it as an opportunity to improve processes, services, and outcomes. Flexibility ensures longevity.

6. Commit to Excellence with Obsession

Pursue every project and client interaction with unwavering commitment. Mediocrity isn't an option—aim for mastery in every endeavor.
